This document relates to the specific organisational details of BWF Grade 3 and Junior International tournaments played in the Oceania region

Grade 3 and Junior International tournaments are governed by the Badminton World Federation (BWF) General Competition Regulations (GCR's), and the Badminton Oceania (BOC) regulations

This document is a guide to be applied as applicable as every tournament is different. For further clarification or information please contact Badminton Oceania.

1. Tournament Sanction, Financial Arrangements and Rights

- 1.1. The Member Association (MA) of the Host Organiser (HO) is to first complete the official BOC sanction form and send to BOC no later than 41 weeks (9.5 months) prior to the start of the tournament to allow for discussion and confirmation of details.
- 1.2. Once BOC approves the tournament the MA of the Host Organiser (HO) must apply for the sanction through the BWF on-line system this must be done no later than 9 months prior to the start of the tournament. If the application is late, it is unlikely sanction will be granted by the BWF
- 1.3. Failure to submit a BOC sanction form and agree terms, may result in sanction being with-held at the discretion of BOC if there are factors which BOC determines may impact on the ability of the HO to meet the regulations and requirements of the tournament including reports, experiences and feedback from previous tournaments organised by the HO. Once sanction is approved the tournament will be added to the BWF international calendar and to the BOC calendar
- 1.4. The international badminton calendar is governed by the BWF. BOC is the link between BOC Member Associations and the BWF when having Grade 3 and Junior International tournaments sanctioned, ie. BWF cannot sanction the tournament before BOC has approved the sanction. The most important prerequisites for a tournament to be sanctioned are fulfilling all the required criteria and complying with the BOC and BWF regulations.
- 1.5. If BOC charges a sanction fee, the fee will be advised prior to applying for sanction. The fee must be paid to BOC prior to the release of the prospectus
- 1.6. The MA who applies for the sanction is responsible for any financial penalties imposed by the BWF for non-compliance of the GCR's. It is highly recommended if the MA is not the HO, there is an agreement in place between the MA and HO to identify roles and responsibilities.
- 1.7. Tournament Planner must be used. Where Live Score is being used, BOC will provide the match control computer with the license already loaded. If Live Score is not being used, BOC will provide to the HO the BWF Tournament Planner license to be used at that tournament only – ie. it MUST NOT be used at any other tournament
- 1.8. BOC to work directly with the HO to provide support and to ensure organisation and delivery is as per the regulations and standards of delivery expected

- 1.9. Any issues over non-compliance of the regulations or organisational matters will in the first instance be addressed with the HO. In the case of unsatisfactory resolution then the MA who applied for the sanction will be requested to assist with resolution
- 1.10. The HO is responsible for all operational financial aspects of the tournament including payment of prizemoney directly to the players at the tournament
- 1.11. BOC will endeavour to have a representative attend Grade 3 and Junior International tournaments. The representative shall have the power to ensure that the rules and regulations are adhered to and that the agreed levels of delivery are upheld
- 1.12. BOC owns all rights, including but not limited to streaming, television, radio, data and images in connection with the tournaments. BOC may grant the MA and HO agreed rights under a separate agreement

2. Planning and Organising the Tournament

The Organising Group

To facilitate a good organisation of the tournament it is important to have an organisational structure that will ensure the tasks and responsibilities are being taken care of.

Planning should commence well before the sanction is applied for as the sanction application form requires important details

The Organising Group should be led by the Tournament Director and consist of people responsible for the main functional areas of the tournament. One person may be responsible for more than one area; however, it is important to have the following areas covered:

- Venue
- Finances
- Practice facilities including schedule
- Transport
- Accommodation
- Accreditation
- Medical and anti-doping
- Umpires
- Line Judges
- Volunteers
- Ticketing – if relevant
- Match control/Announcer
- Catering
- Hospitality
- Social functions
- Security, health and safety
- Sponsor servicing
- Marketing and promotion

The Tournament Director to be the communication point between the Organising Group, BOC and the Referee

It is important to note that all venue, local and national government regulations need to be considered and met; including but not limited to Emergency Procedures, Health and Safety, medical protocols etc.

Each person responsible for a functional area should have a job description created by the Tournament Director. Meetings and communication are important to ensure all areas are progressing as required and all areas are connected. Notes from meetings should be circulated.

It is also important for the Organising Group to consider the legacy from hosting the tournament, in the planning phase. Some possible legacies could be:

- To attract new volunteers to the sport
- To train and give experience to new line judges
- To give umpires international experience
- To attract new sponsors to the sport
- To promote badminton in the local area to potential new players
- To acquire new equipment which can be used after the tournament
- To train and upskill tournament organisers
- To engage junior players to become fans

Tournament related meeting times: ie. Team Managers Meeting, Umpire Briefing, Line Judge Briefing, should be organised in consultation with the Referee

See Appendix 2 for a sample checklist of tasks to be achieved

3. Finance

The financial control of the tournament is a crucial factor for success. Matters to consider are:

- budget
- financial processes – who has authority to approve payments etc
- handling of cash and petty cash
- cash flow
- reporting and accountability.

It is important to have contracts in place with sponsors to ensure everyone is fully aware of levels of expectation and responsibilities

Contracts may also be required with the venue, accommodation providers, the transport company, caterers etc

Hosts should also consider risks to the tournament and insurance cover should cancellation occur

4. Venue

The venue must be confirmed prior to the sanction of the tournament being applied for as well as confirmation that the venue can be set-up with the required number of courts, meeting required regulations and requirements as listed below:

The HO to produce a scale diagram of the venue set-up and send to the Referee at least 60 days prior to the start of the tournament

- 4.1. All matches in the tournament must be played in the same venue.
- 4.2. If the tournament is over 4 days, 5 competition courts should be allowed for; if the tournament is over 5 days, 4 competition courts are required – see appendix 1
- 4.3. The desirable height unobstructed of the playing area is 12m, the minimum height is 9m.
- 4.4. Lighting should be at least 500 lux. It must be non-blinding and an even distribution over the entire court.
- 4.5. There should be a minimum of 2.5m clear space surrounding all the outer lines of the court, the preferred distance between any two courts marked out side by side is 3m (mat to mat) to allow for line judges and fixed height service units. Fixed height service units are mandatory
- 4.6. No part of the background behind the ends of the court should be coloured white. This to include advertising signs.
- 4.7. It is essential that all aspects of health & safety, and security for players, officials and spectators are in accordance with local Government regulations. The venue health and safety requirements to be included in the information distributed at the Managers meeting. All incidences to be reported to both the HO and the Referee
- 4.8. The competition venue, set-up, should be available at least one full day prior to the start of the tournament for a full day of practice. A different venue may be used prior to this for practice
- 4.9. It is recommended (not mandatory) under BWF General Competition Regulations that there are two warm-up courts provided in the competition venue
- 4.10. Practice courts to be provided free of charge as from two days prior to the start of the tournament. Players requiring courts earlier than this may be charged a reasonable fee by the host organiser. Practice courts should be made available during the tournament where possible. If the competition courts are used for practice, the session must finish at least one hour prior to the start of play or earlier if requested by the Referee
- 4.11. All matches in International Challenge and International Series tournaments to be played on court mats on top of a wooden floor
- 4.12. Ideally all matches in a Future Series tournament are played on court mats, however they may be played on a synthetic floor or a wooden floor; preferably

solely marked for badminton upon application to BOC who will have the final say as to if the venue is suitable or not.

- 4.13. Only one surface to be used for the entire tournament – ie. all matches are played on court mats or a wooden floor, there cannot be a combination of surfaces for competition courts. Warm-up courts may be a different surface
- 4.14. If there are lines on the floor for other sports, the badminton lines must be continuous and ideally be white in colour. Ideally some of the other lines to be covered over to ensure avoidance of doubt
- 4.15. The direction of the courts must remain the same for the duration of the tournament
- 4.16. There must be a sound system which must be audible in the warm-up area.
- 4.17. It is preferable that separate changing, shower and toilet facilities are provided for the players and public.
- 4.18. Drug testing facilities as per the BWF regulations must be provided for and be available for the duration of the tournament. If testing is to occur the Host Organiser will be contacted.
- 4.19. Equipment requirements are:
 - Court mats – IC, IS optional for FS

- Internet connection – preferably available free of charge to players, it is a mandatory requirement for match control and the Referees

- A suitable area identified for the assembly of the Technical Officials and players prior to being called to court
- A suitable area to be available if any media attend the tournament and require a working space
- Seating areas specifically for players, officials, and volunteers
- There should be a specified area where players can leave their gear bags which cannot be accessed by the public
- Preferably a separate volunteers and Technical Officials room/area
- A racket restringing service to be provided – this can be charged for or can be part of a sponsorship arrangement
- Safe storage of equipment before the tournament and security of the venue overnight during the tournament – note: it is not possible to pack away most of the Live Score equipment overnight therefore the venue must be secured.
- Arrangements need to be made to attend to any venue maintenance as soon as possible during the tournament – ie. replacement of light bulbs, plumbing issues, hot water issues etc
- A full venue clean each night

4.21. The tournament venue to ideally have a café open as from 30 minutes prior to the start of play each day and until 30 minutes before the end of play each day. If the venue does not have a café or similar, information on where to purchase food close to the competition venue to be included in the information distributed at the managers meeting

- 4.24. BOC to be provided with up to 10 accreditation passes at no charge (if accreditation passes are required)

5. Branding, Communications and Media

Good communication is a key component to a good tournament. Complaints often arise due to miscommunication, including conflicting information, or lack of information

It is important when preparing the prospectus that the HO and BOC agree the website where all tournament information is going to be published, i.e., on the BOC website or the HO website. BOC's recommendation and preference is that all information is published on the BOC website and the HO has a link from their website to the BOC page

The practice schedule and corresponding transport schedule and managers meeting information should be given to managers/players on arrival

The BOC Communications Manager to work directly with the HO on a branding and media plan for the tournament

The BOC Communications Manager will most likely be on-site for the duration of the tournament – to be confirmed directly with the HO. If so, the HO to provide airport transfers, transport to and from the tournament venue, meals when at the venue. BOC to meet all travel and accommodation costs of the Communications Manager

- 6.2. All appointments will be made and approved by BOC at least 4 months prior to the start of the tournament. Once these appointments are confirmed BOC to advise the HO including contact details and financial arrangements
- 6.3. The relationship between the Tournament Director and the Referee is key. It is highly recommended that as soon as the HO is notified of the Referee, contact is made to discuss items for the prospectus – ie. schedule, meeting times etc

- 6.6. Where practical and within budget, BOC will accommodate the appointed Referees at the official accommodation provider. BOC will work with the HO regarding bookings etc. Where the HO is providing the accommodation, it must include breakfast or an alternative arrangement to be made (i.e. allowance)
- 6.7. Transport to and from the airport and the competition venue to be provided for the Referees. The Referees are required to be on-site at least one hour prior to the start of play each day; they may request an earlier time, which the HO must provide

17. Transport

Transport can be one of the most challenging areas of a tournament to organise; if it goes wrong, it can cause player's considerable stress. Very often the success of a tournament is judged by players based on how good the transport was.

It is important that there is good, consistent information available about transport and that it runs to time and is reliable

- 17.1. Transport to and from the closest international airport to be provided free of charge to all players and officials staying at the official accommodation. There is no requirement to provide any transport to players or officials not staying at the official accommodation

 - Future and International Series Tournaments – the minimum requirement is to provide transport to arrive at the venue at least 60 minutes prior to the start of the first match of the day/session, a return trip in the middle of the session and return transport at the conclusion of the session.
 - International Challenge Tournaments – as for Future and International Series Tournaments with additional frequency to ensure a minimum of one return trip every 3 hours (ideally there will be a greater frequency)
 - Transport to be provided for the Referees and Umpires (ideally separate to the players) to arrive at the venue no later than 60 minutes prior the start of play and return when they have completed all their duties at the end of play. Note – the Referees may request an earlier arrival time than 60 minutes prior to the start of the session
- 17.6. The HO to ensure there are sufficient vehicles available and ensure that there is sufficient room for luggage when transporting to and from the airport
- 17.7. There should be one person in charge of transport who players/managers can contact
- 17.8. It is highly recommended that the HO does not put on "special trips" outside of their published schedule
- 17.9. There should at all times be a vehicle available to transport people for any urgent matters which arise
- 17.10. Pick-up and drop-off points should be publicised and sign-posted
- 17.11. A process should be put in place to confirm departure times and pick-up arrangements – allow plenty of time to get people to the airport.

- 20.8. The BWF will publish all information on the BWF calendar
- 20.9. BOC will promote the tournament through BOC platforms

21. Live Score

Live Score significantly enhances the presentation and delivery of the tournament. Where possible BOC will implement Live Score, as developed by Visual Reality, at the

tournament. Considerations when determining implementation are: internet capacity and reliability, cost of freight of equipment, availability of equipment the host needs to provide, cost of television hire and any other factors which impact on the ability to deliver Live Score.

BOC cannot implement and manage the Live Score system without the assistance and cooperation from the HO. There is a reliance; in some cases, on the HO to provide some of the infrastructure needed to make it all work (i.e., cabling, power supply, internet etc). BOC asks for the HO goodwill and support in enabling this service which will benefit all stakeholders.

- 21.1. If Live Score is implemented BOC will have a technical staff person on-site to oversee the technical set-up and management of Live Score. BOC will supply the Live Score license and can provide the Live Score technical manual to the HO which outlines what is required for the set-up.
- 21.2. The HO to assist with the set-up of Live Score, as requested by BOC
- 21.3. The HO to provide an internet connection for Live Score; it must be wired, and the IP address of the line supplied for live score needs to be 192.168.2.1, if the line supplied doesn't have that IP address there will need to be a router installed with that address, the line should ideally be dedicated for live score
- 21.4. The HO to provide quotes, as requested by BOC, for the hire of TV screens (if required)

22. Streaming

BOC holds the streaming rights for all Grade 3 and Junior International Tournaments as per the BWF regulations

BOC will be responsible for producing or arranging the production of the streaming; the cooperation of the HO is required: camera location, internet, volunteers etc

If the HO has their own existing arrangement for streaming, this will need to be discussed with BOC

- 22.1. The HO to provide a suitable position for the camera, the position should offer a clear and uninterrupted view of the game play from behind the baseline. The position must be clearly identified and not be close to any public access to ensure no interference with the camera or any audio. A power supply is required to the camera location
- 22.2. The HO to provide, one volunteer, for all sessions to oversee the streaming graphics
- 22.3. The HO to provide (where possible) a person, or people, to provide commentary for the semi-finals and finals. This person/s should ideally have prior commentary experience and be knowledgeable about badminton at an international level and about the players involved in the matches.

23. Medical

- 23.1. A qualified medical person: (Doctor, Physiotherapist, or First Aider), capable of taking charge of on-court injuries must be present at the tournament venue at all times during play and be in close proximity to the courts; they should be provided with a RT radio so they are contactable at all times. The HO to ensure that the medical person on duty each day (if different from day to day) is introduced to the Referee so they can be briefed on protocols
- 23.2. The medical person or HO to provide a suitable medical kit for attending to on-court injuries; specifically stopping bleeding. Self adhesive bandage tape is best for fingers (needs to be narrow), knees etc. Band-aids do not work to stop bleeding as players are too sweaty. There should also be a good supply of cold spray available
- 23.3. The cost of the medical provider to be met by the HO – ideally this service is provided on a volunteer basis
- 23.4. It is recommended that Physiotherapy services are provided free of charge however a charge may be made for strapping. Clarification – the Physiotherapist may also be the medical person to attend to on-court injuries
- 23.5. The HO to ensure there is a good supply of ice which is easily accessed.
- 23.6. A first aid kit and blood spill kit should be located at the medical desk, courtside.
- 23.7. The blood spill kit to contain: antiseptic wipes, gloves, paper towels, a disposal bag
- 23.8. The HO to notify a local physiotherapy clinic of the tournament and make arrangements should a player require urgent treatment. If the on-site medical person is not a physiotherapist it is very important to have this arrangement in place. Often players will arrive at the tournament from a tournament the week prior and will require physiotherapy or massage in the days leading up to the tournament

24. Umpires, Service and Line judges

- 24.1. It is the responsibility of the HO to ensure that there are sufficient umpires of a suitable level – ie. not players, minimum level is national or Pacific accredited.
- 24.2. It is mandatory that a minimum of three umpires per court must be provided for all stages of the tournament, 4 umpires per court is preferable.
- 24.3. Service judges must be provided for all matches as fixed height serving is mandatory
- 24.4. For International Challenge tournaments it is mandatory to have at least 3 foreign umpires and at least 3 Continental Confederation level umpires umpiring at the tournament.
- 24.5. For International Series and Future Series tournaments it is mandatory to have at least 2 foreign umpires and at least 2 Continental Confederation level umpires umpiring at the tournament.

- 24.6. The HO to work in conjunction with BO with regards to appointing Oceania level and Oceania development umpires.
- 24.7. The HO is responsible for appointing national level umpires from their MA
- 24.8. If the HO wishes to appoint national level umpires from another MA they should work through the Technical Officials Committee of that MA – BO can provide contact details and assistance if required
- 24.9. The HO to appoint an Umpire Co-ordinator who should be the first point of contact for the umpires; including pre-tournament information: transport, accommodation, briefing time, uniform etc. This person to be responsible for the management of the umpires during the tournament including assigning Umpires to matches as agreed with the Referee
- 24.10. The HO to either provide all umpires with a tournament uniform (2 shirts and jacket) or advise them in advance that they will be wearing their country uniform and to bring with them to the tournament
- 24.11. The HO to arrange accommodation – with breakfast, transport, and all meals at the venue for non-local umpires. The HO to clearly state, when applications are called for, what costs the tournament is meeting and what costs the Umpire needs to meet
- 24.12. The HO to provide the Referee, 2-3 weeks prior to the tournament, a list of the name, qualification and if possible, a head and shoulders photo, of all umpires
- 24.13. The Referee and Match Control to agree on the system to be used for the allocation of umpires and service judges to each match
- 24.14. The Referee shall appoint the umpires and service judges for the semi-finals and finals.
- 24.15. The HO to appoint a line judge co-ordinator who will be responsible for recruitment, training, scheduling and on the day management of the line judges. The numbers below are per match, when recruiting the HO must have sufficient line judges to ensure all are given suitable rest-time – ie. there needs to be more on each shift than the minimum number required on court
- 24.16. International Series and Future Series tournaments must have a minimum of 2, (4 is preferred), line judges per match for qualification and main draw matches until the quarterfinals. There must be a minimum of 4 line judges per match for quarterfinals and 6 line judges for semifinals and finals matches.
- 24.17. The minimum age for line judges is 14 years old however it is strongly recommended to use line judges who are aged 16 or over
- 24.18. The HO to advise the Referee 10 days prior to the tournament the number of line judges they will have per round of the tournament
- 24.19. The HO shall provide a uniform (polo shirt and jacket) for all line judges; this should not be white or red in colour

- 24.20. The HO shall provide, free of charge, to all Technical Officials: Referees, Umpires and Line Judges, hot drinks, water, and a meal if assisting at the tournament over a mealtime.

25. Ticketing and Accreditation

The HO to determine if the tournament will charge spectators an entrance fee

If the tournament is charging spectators a fee, all players and team officials to be provided with accreditation passes to ensure easy access to the venue

26. Functions and Ceremonies

- 26.1. BOC to be invited to all official functions relating to the tournament
- 26.2. BOC to be invited to participate in a minimum of one presentation ceremony
- 26.3. Finals day is a "special day" and should be treated as such – this is the lasting impression many will have of the tournament and is likely to be the day with the highest number of spectators
- 26.4. The HO to pre-arrange who will present the trophies etc for each event. The Tournament Director to ensure the Referee is informed as to when, where etc the presentations will take place so they can advise managers, coaches and players
- 26.5. The presentation ceremonies should be carried out as soon as possible after each final. These need to be organised in advance, should have minimal (if any) speeches, and should include photo opportunities showing tournament branding. Consider the background which shows in the photos
- 26.6. It is standard practice to recognise the Referees with either a small trophy or gift from the HO
- 26.7. It is also a nice gesture to recognise other groups of people involved in the tournament with a certificate of appreciation: Umpires, Line Judges, Volunteers
- 26.8. If time permits, it is also a nice gesture for the HO to arrange a dinner for the Referee's and Umpire's (HO to cover the cost)
- 26.9. The HO, in conjunction with the Referees to organise Technical Officials and Volunteers photos. Note – it is advisable to do this either prior to the quarterfinals or semifinals sessions.

27. Match Control

When the tournament starts match control is an integral part to the smooth running of the tournament

Ideally the Tournament Director will oversee match control, however this is at the discretion of the HO as to who performs what roles based on skill sets. There needs to be at least one person involved with match control who is experienced in the operation of tournament software, including: scheduling, reporting, draw management. Note – it is

not the role of the Referee to operate Tournament Software although they will have a knowledge of the application and may at times request reports or access the file.

The HO to produce a draft schedule for each day to present to the Referee for feedback and final approval prior to publishing

Following the Managers Meeting, the HO is responsible for making the required changes as directed by the Referee in the draws in Tournament Planner.

All changes to be approved by the Referee prior to being published

Match control includes the following roles:

- Tournament Planner file management
- Umpire assignment to matches – in conjunction with the Umpire Manager
- Announcer (may be a separate person if required)

Match control to work in conjunction with:

- The Referees
- The Live Score Operator
- The Umpire Manager
- The Line Judge Manager
- Player Marshalling
- Field of play Manager
- Shuttle Control

For more information on each of the roles above, contact BOC

Match Control to have the following processes in place:

- Determining how umpires are allocated to each match – as set by the umpire manager and Referee
- Working with marshalling:
 - Match control to advise the court a match is being assigned to (if matches are scheduled to time and not set on fixed courts)
 - Marshalling to advise match control/announcer, when the match is ready to go onto court (ie. all checks have been completed)

Copies of the schedule to be printed for:

- Referees
- Umpire Manager
- Line Judge Manager
- Team Managers and players
- Marshalling

The scoresheets for the session should all be printed – if the Umpire and Service Judge for each match has been determined, enter these into the system before printing the scoresheets.

When printing the scoresheets ensure the Country of each player is printed on the sheet

Announcements should include:

- The court number
- Name of the event
- Match number
- Player names and country

- The name and country of the umpire and service judge is optional
- "The next match on court 2 is Men's Singles match number 21.
John Smith (Cook Islands) vs Bill Jones (Tonga)"

End of play:

- Print out a copy of all draws, give to the Referee to sign – file
- Send a back-up copy of the TP file to the Referees and BOC
- Back up the TP file
- Ensure all hard copy draws in the venue are updated

28. Results

- 28.1. The on-line results should be updated using the automatic update feature in Tournament Planner – if Live Score is not operational
- 28.2. The results boards within the competition venue to be updated frequently during the hours of play. Tournament TV through Tournament Software may be used, this cost to be met by the HO.
- 28.3. At the conclusion of play each day a copy of the TP file to be sent to BOC and the Referee. Note – if this does not occur there are BWF financial penalties which will be imposed
- 28.4. At the conclusion of the tournament the completed TP file to be sent to BOC and the Referee as soon as possible but no later than 4 hours following the completion of the tournament. Note – if this does not occur there are BWF financial penalties which will be imposed

- 29.2. The HO to complete a tournament report on the template provided. This report to be sent to BOC by the HO within one month after the tournament.
- 29.3. The Referees Report to be sent to BOC. BOC will forward a copy of the report to the HO national TO Committee and to the Chair of BOTOC
